TYPE OF MASTER KEY SYSTEMS

Key to Differ (KD)

Each cylinder can be operated by its own key.

Key Alike (KA)

All cylinders share the same configuration and can be opened by a single key.

Central Locking System (CK)

Every cylinder has its own key which cannot open any other cylinder of the system. All the keys of the system can open the cylinder of the central lock.

Master Key System (MK)

Every cylinder can be opened by its own key which cannot open any other cylinder of the system. All the cylinders can be opened by the MK master key.

Grand Master Key System (GMK)

Same as the Master key system but in two or more groups. Every group of cylinders can be opened by its own service key. All the cylinders of the system can be opened by the GMK grand master key.
